

OPEN AND FAITHFUL HEARTS

*Our loyalty is part of us. We love because we
want to, we choose to.*

*We see our people through the eyes of love,
finding their best.*

*Even when your actions are confusing we know that
is not the real you.*

You sometimes cloud yourselves with strange things.

*I have been with you during your disappointments
and challenges.*

When you did not have faith in yourself I did.

I know you better than anyone, including yourself.

*It is my job to pay attention and know who you are
so that I can offer my support at any time.*

Even though I may not always agree with you,

I honor your decision. I trust you with my all.

We come to you with open and faithful hearts.
